

Rec Trail

The Tomah Recreation Trail has several points where you may begin your walking, biking, roller blading, or cross-country skiing outdoor adventure. If you would like to venture the entire distance of the trail, use this suggested 2-mile long route.

Enter the trail by Lake Tomah in Winnebago Park. Travel north towards the dam. Now cross over Butts Ave heading east and continue on the trail.

In this prairie area you will find native plants, wildlife, and several species of North American birds. Be sure to stop at the look-out dock for a scenic view of the area. Continue heading east, next you will

cross over Superior Ave. The trail now curves along the Lemonweir River. When you come to the end of this section, travel north towards Veterans Park (you can walk the nature trail located at the west end of the park if you would like).

Next head out on to North Glendale Ave. Travel south along this road to get to Washington Street. For your safety, please

remain on the sidewalk while traveling along North Glendale Ave. At Washington Street head south-east to continue along the trail.

The trail will now continue south where sections of the trail will run along Council Creek. You will end your trip by Buckley Park, where the Tomah Aquatic Center is located! Have fun and please be aware of your surroundings!
